MANAGING EDITOR

J. David Baldwin

EDITORIAL PRODUCTION STAFF

David A. Gooding, Associate Managing Editor
Sarah G. Gagnon, Technical Editor
Jill Leichter, Production Editor
Jane L. Bain, Features Editor
Dooley Kiefer, Copy Editor
Margaret B. Shepard, Copy Editor
Nancy R. Sorrells, Copy Editor

TABLE OF CONTENTS, Volume 81, 2000

NUMBER 1, JANUARY

Editorial 1–2

Reports

FOX, C. W., AND U. M. SAVALLI. Maternal effects mediate host expansion in a seed-feeding beetle 3–7

POST, D. M., M. E. CONNERS, AND D. S. GOLDBERG. Prey preference by a top predator and the stability of linked food chains 8–14

Articles

HERRERA, C. M. Flower-to-seedling consequences of different pollination regimes in an insect-pollinated shrub 15–29

MOTHERSHEAD, K., AND R. J. MARQUIS. Fitness impacts of herbivory through indirect effects on plant–pollinator interactions in *Oenothera macrocarpa* 30–40

JUENGER, T., AND J. BERGELSON. Does early season browsing influence the effect of self-pollination in scarlet gilia? 41–48

MUTIKAINEN, P., M. WALLS, J. OVASKA, M. KEINÄNEN, R. JULKUNEN-TIITTO, AND E. VAPAAVUORI. Herbivore resistance in *Betula pendula*: effect of fertilization, defoliation, and plant genotype 49–65

OEDEKOVEN, M. A., AND A. JOERN. Plant quality and spider predation affects grasshoppers (Acrididae): food-quality-dependent compensatory mortality 66–77

SIROTNAK, J. M., AND N. J. HUNTLY. Direct and indirect effects of herbivores on nitrogen dynamics: voles in riparian areas 78–87

KNOPS, J. M. H., AND D. TILMAN. Dynamics of soil nitrogen and carbon accumulation for 61 years after agricultural abandonment 88–98

SYMSTAD, A. J. A test of the effects of functional group richness and composition on grassland invasibility 99–109

WOODS, K. D. Dynamics in late-successional hemlock–hardwood forests over three decades 110–126

STERNER, R. W., AND N. B. GEORGE. Carbon, nitrogen, and phosphorus stoichiometry of cyprinid fishes 127–140

MERRIMAN, J. L., AND K. L. KIRK. Temporal patterns of resource limitation in natural populations of rotifers 141–149

STRAILE, D., AND A. HÄLBICH. Life history and multiple antipredator defenses of an invertebrate pelagic predator *Bythotrephes longimanus* 150–163

VERSCHUREN, D., J. TIBBY, K. SABBE, AND N. ROBERTS. Effects of depth, salinity, and substrate on the invertebrate community of a fluctuating tropical lake 164–182

COTTINGHAM, K. L., AND D. E. SCHINDLER. Effects of grazer community structure on phytoplankton response to nutrient pulses 183–200

CRUZ-RIVERA, E., AND M. E. HAY. Can quantity replace quality? Food choice, compensatory feeding, and fitness of marine mesograzers 201–219

KNICK, S. T., AND J. T. ROTENBERRY. Ghosts of habitats past: contribution of landscape change to current habitats used by shrubland birds 220–227

MCSHEA, W. J. The influence of acorn crops on annual variation in rodent and bird populations 228–238

HANSKI, I., J. ALHO, AND A. MOILANEN. Estimating the parameters of survival and migration of individuals in metapopulations 239–251
KOKKO, H., AND G. D. RUXTON. Breeding suppression and predator–prey dynamics 252–260

Notes

YODZIS, P. Diffuse effects in food webs 261–266
LEVEY, D. J., AND S. SARGENT. A simple method for tracking vertebrate-dispersed seeds 267–274
GORDON, W. S., AND R. B. JACKSON. Nutrient concentrations in fine roots 275–280
STILING, P., AND T. I. BOWDISH. Direct and indirect effects of plant clone and local environment on herbivore abundance 281–285

Book Reviews 286–292

Books and Monographs Received 292

Erratum 293

Data Paper

CLARK, D. B., AND D. A. CLARK. Tree growth, mortality, physical condition, and microsite in old-growth lowland tropical rain forest 294

NUMBER 2, FEBRUARY

Articles

GEORGES, J.-Y., AND C. GUINET. Maternal care in the subantarctic fur seals on Amsterdam Island 295–308
WEIMERSKIRCH, H., C. BARBRAUD, AND P. LYS. Sex differences in parental investment and chick growth in Wandering Albatrosses: fitness consequences 309–318
HANSSON, B., S. BENSCH, AND D. HASSELQUIST. Patterns of nest predation contribute to polygyny in the Great Reed Warbler 319–328
SJÖBERG, K., H. PÖYSÄ, J. ELMBERG, AND P. NUMMI. Response of Mallard ducklings to variation in habitat quality: an experiment of food limitation 329–335
BADYAEV, A. V., K. R. FORESMAN, AND M. V. FERNANDES. Stress and developmental stability: vegetation removal causes increased fluctuating asymmetry in shrews 336–345
COSTANZO, J. P., J. D. LITZGUS, J. B. IVERSON, AND R. E. LEE, JR. Ice nuclei in soil compromise cold hardiness of hatchling painted turtles (*Chrysemys picta*) 346–360
MCGRADY-STEED, J., AND P. J. MORIN. Biodiversity, density compensation, and the dynamics of populations and functional groups 361–373
BLUMENSHINE, S. C., D. M. LODGE, AND J. R. HODGSON. Gradient of fish predation alters body size distributions of lake benthos 374–386
KLUG, J. L., J. M. FISCHER, A. R. IVES, AND B. DENNIS. Compensatory dynamics in planktonic community responses to pH perturbations 387–398
THRUSH, S. F., J. E. HEWITT, V. J. CUMMINGS, M. O. GREEN, G. A. FUNNELL, AND M. R. WILKINSON. The generality of field experiments: interactions between local and broad-scale processes 399–415
HOLMES, R. M., B. J. PETERSON, L. A. DEEGAN, J. E. HUGHES, AND B. FRY. Nitrogen biogeochemistry in the oligohaline zone of a New England estuary 416–432

HUGHES, J. E., L. A. DEEGAN, B. J. PETERSON, R. M. HOLMES, AND B. FRY. Nitrogen flow through the food web in the oligohaline zone of a New England estuary 433–452
JOHNSON, L. C., G. R. SHAVER, D. H. CADES, E. B. RASTETTER, K. NADELHOFFER, A. GIBLIN, J. LAUNDRE, AND A. STANLEY. Plant carbon–nutrient interactions control CO_2 exchange in Alaskan wet sedge tundra ecosystems 453–469
MOON, D. C., AND P. STILING. Relative importance of abiotically induced direct and indirect effects on a salt-marsh herbivore 470–481
MORALES, M. A. Mechanisms and density dependence of benefit in an ant–membracid mutualism 482–489
NORTON, A. P., G. ENGLISH-LOEB, D. GADOURY, AND R. C. SEEM. Mycophagous mites and foliar pathogens: leaf domatia mediate tritrophic interactions in grapes 490–499
AGRAWAL, A. A. Host-range evolution: adaptation and trade-offs in fitness of mites on alternative hosts 500–508
HARE, J. D., AND D. J. W. MORGAN. Chemical conspicuousness of an herbivore to its natural enemy: effect of feeding site selection 509–519
OUBORG, N. J., A. BIERE, AND C. L. MUDDE. Inbreeding effects on resistance and transmission-related traits in the *Silene–Microbotryum* pathosystem ... 520–531
ECKERT, C. G. Contributions of autogamy and geitonogamy to self-fertilization in a mass-flowering, clonal plant 532–542
AUBRY, P., AND D. DEBOUZIE. Geostatistical estimation variance for the spatial mean in two-dimensional systematic sampling 543–553
RUNKLE, J. R. Canopy tree turnover in old-growth mesic forests of eastern North America 554–567
CONNELL, J. H., AND P. T. GREEN. Seedling dynamics over thirty-two years in a tropical rain forest tree 568–584
HERWITZ, S. R., R. E. SLYE, AND S. M. TURTON. Long-term survivorship and crown area dynamics of tropical rain forest canopy trees 585–597

Book Reviews 598–602

Books and Monographs Received 603

Data Paper

RIITTERS, K. H., J. D. WICKHAM, J. E. VOGELMANN, AND K. B. JONES. National land-cover pattern data 604

NUMBER 3, MARCH

Special Feature

HEPPELL, S., C. PFISTER, AND H. DE KROON. Elasticity analysis in population biology: methods and applications 605–606
DE KROON, H., J. VAN GROENENDAEL, AND J. EHRLÉN. Elasticities: a review of methods and model limitations 607–618
CASWELL, H. Prospective and retrospective perturbation analyses: their roles in conservation biology 619–627
WISDOM, M. J., L. S. MILLS, AND D. F. DOAK. Life stage simulation analysis: estimating vital-rate effects on population growth for conservation 628–641
SÆTHER, B.-E., AND Ø. BAKKE. Avian life history variation and contribution of demographic traits to the population growth rate 642–653
HEPPELL, S. S., H. CASWELL, AND L. B. CROWDER. Life histories and elasticity patterns: perturbation analysis for species with minimal demographic data 654–665

VAN TIENDEREN, P. H. Elasticities and the link between demographic and evolutionary dynamics 666–679
GRANT, A., AND T. G. BENTON. Elasticity analysis for density-dependent populations in stochastic environments 680–693
EASTERLING, M. R., S. P. ELLNER, AND P. M. DIXON. Size-specific sensitivity: applying a new structured population model 694–708

Articles

PENNINGS, S. C., AND R. M. CALLAWAY. The advantages of clonal integration under different ecological conditions: a community-wide test 709–716
MCLACHLAN, J. S., D. R. FOSTER, AND F. MENALLED. Anthropogenic ties to late-successional structure and composition in four New England hemlock stands 717–733
CONNOR, E. F., A. C. COURTNEY, AND J. M. YODER. Individuals–area relationships: the relationship between animal population density and area 734–748
GARCÍA-RAMOS, G., F. SÁNCHEZ-GARDUÑO, AND P. K. MAINI. Dispersal can sharpen parapatric boundaries on a spatially varying environment 749–760
FERGUSON, S. H., M. K. TAYLOR, AND F. MESSIER. Influence of sea ice dynamics on habitat selection by polar bears 761–772
FAUCHALD, P., K. E. ERIKSTAD, AND H. SKARSFJORD. Scale-dependent predator–prey interactions: the hierarchical spatial distribution of seabirds and prey 773–783
FINELLI, C. M., N. D. PENTCHEFF, R. K. ZIMMER, AND D. S. WETHEY. Physical constraints on ecological processes: a field test of odor-mediated foraging 784–797
AIROLDI, L. Effects of disturbance, life histories, and overgrowth on coexistence of algal crusts and turfs 798–814
BAINES, S. B., K. E. WEBSTER, T. K. KRATZ, S. R. CARPENTER, AND J. J. MAGNUSON. Synchronous behavior of temperature, calcium and chlorophyll in lakes of northern Wisconsin 815–825
TESSIER, A. J., M. A. LEIBOLD, AND J. TSAO. A fundamental trade-off in resource exploitation by *Daphnia* and consequences to plankton communities 826–841
HANSSON, L.-A. Synergistic effects of food chain dynamics and induced behavioral responses in aquatic ecosystems 842–851
PONSARD, S., AND R. ARDITI. What can stable isotopes ($\delta^{15}N$ and $\delta^{13}C$) tell about the food web of soil macro-invertebrates? 852–864
LANGELLOTTO, G. A., R. F. DENNO, AND J. R. OTT. A trade-off between flight capability and reproduction in males of a wing-dimorphic insect 865–875

Notes

KAITALA, A., AND A. H. AXÉN. Egg load and mating status of the golden egg bug affect predation risk 876–880

Book Reviews 881–885

Books and Monographs Received 885–886

NUMBER 4, APRIL

Reports

WILSEY, B. J., AND C. POTVIN. Biodiversity and ecosystem functioning: importance of species evenness in an old field 887–892

YEAKLEY, J. A., AND J. F. WEISHAMPEL. Multiple source pools and dispersal barriers for Galápagos plant species distribution 893–898
JANSSON, R., C. NILSSON, AND B. RENÖFÄLT. Fragmentation of riparian floras in rivers with multiple dams 899–903

Articles

MCPEEK, M. A., AND J. M. BROWN. Building a regional species pool: diversification of the *Enallagma* damselflies in eastern North America 904–920
EISENBERG, J. N. S., J. O. WASHBURN, AND S. J. SCHREIBER. Generalist feeding behaviors of *Aedes sierrensis* larvae and their effects on protozoan populations 921–935
EUBANKS, M. D., AND R. F. DENNO. Host plants mediate omnivore–herbivore interactions and influence prey suppression 936–947
BECKERMAN, A. P. Counterintuitive outcomes of interspecific competition between two grasshopper species along a resource gradient 948–957
HEEB, P., M. KÖLLIKER, AND H. RICHNER. Bird–ectoparasite interactions, nest humidity, and ectoparasite community structure 958–968
VAN DER WAL, R., H. VAN WIJNEN, S. VAN WIEREN, O. BEUCHER, AND D. BOS. On facilitation between herbivores: how Brent Geese profit from brown hares 969–980
MOSS, R., D. A. ELSTON, AND A. WATSON. Spatial asynchrony and demographic traveling waves during Red Grouse population cycles 981–989
MEROLA-ZWARTJES, M., AND J. D. LIGON. Ecological energetics of the Puerto Rican Tody: heterothermy, torpor, and intra-island variation 990–1003
ARLETTAZ, R., C. RUCHET, J. AESCHIMANN, E. BRUN, M. GENOUD, AND P. VOGEL. Physiological traits affecting the distribution and wintering strategy of the bat *Tadarida teniotis* 1004–1014
LEONARD, G. H. Latitudinal variation in species interactions: a test in the New England rocky intertidal zone 1015–1030
NAKAOKA, M. Nonlethal effects of predators on prey populations: predator-mediated change in bivalve growth 1031–1045
SCHLOSSER, I. J., J. D. JOHNSON, W. L. KNOTEK, AND M. LAPINSKA. Climate variability and size-structured interactions among juvenile fish along a lake–stream gradient 1046–1057
PERSSON, L., P. BYSTRÖM, AND E. WAHLSTRÖM. Cannibalism and competition in Eurasian perch: population dynamics of an ontogenetic omnivore 1058–1071
BERNTSON, G. M., AND P. M. WAYNE. Characterizing the size dependence of resource acquisition within crowded plant populations 1072–1085
CATER, T. C., AND F. S. CHAPIN, III. Differential effects of competition or microenvironment on boreal tree seedling establishment after fire 1086–1099
HUTH, C. J., AND O. PELLMYR. Pollen-mediated selective abortion in yuccas and its consequences for the plant–pollinator mutualism 1100–1107
GARTEN, C. T., JR., L. W. COOPER, W. M. POST III, AND P. J. HANSON. Climate controls on forest soil C isotope ratios in the Southern Appalachian Mountains 1108–1119
HANSEN, R. A. Effects of habitat complexity and composition on a diverse litter microarthropod assemblage 1120–1132

Notes

MORIUCHI, K. S., D. L. VENABLE, C. E. PAKE, AND T. LANGE. Direct measurement of the seed bank age structure of a Sonoran Desert annual plant 1133–1138
DAMGAARD, C., AND J. WEINER. Describing inequality in plant size or fecundity 1139–1142
VEECH, J. A. A null model for detecting nonrandom patterns of species richness along spatial gradients 1143–1149

AYARBE, J. P., AND T. L. KIEFT. Mammal mounds stimulate microbial activity in a semiarid shrubland 1150–1154
NÄSHOLM, T., K. HUSS-DANELL, AND P. HÖGBERG. Uptake of organic nitrogen in the field by four agriculturally important plant species 1155–1161

Comments

HUNT, W. G., AND P. R. LAW. Site-dependent regulation of population size 1162–1165
HAWKINS, B. A., AND A. A. BERRYMAN. Site–dependent regulation of population size: Comment 1166–1168
RODENHOUSE, N. L., T. W. SHERRY, AND R. T. HOLMES. Site-dependent regulation of population size: Reply 1168–1171

Book Reviews 1172–1175

Books and Monographs Received 1176

Data Papers

ESSER, G., H. F. H. LIETH, J. M. O. SCURLOCK, AND R. J. OLSON. Osnabrück net primary productivity data set 1177

Errata 1178

NUMBER 5, MAY

Articles

BRUNO, J. F. Facilitation of cobble beach plant communities through habitat modification by *Spartina alterniflora* 1179–1192
ROBBINS, B. D., AND S. S. BELL. Dynamics of a subtidal seagrass landscape: seasonal and annual change in relation to water depth 1193–1205
GROSHOLZ, E. D., G. M. RUIZ, C. A. DEAN, K. A. SHIRLEY, J. L. MARON, AND P. G. CONNORS. The impacts of a nonindigenous marine predator in a California bay 1206–1224
BYERS, J. E. Competition between two estuarine snails: implications for invasions of exotic species 1225–1239
LIVELY, C. M., W. N. HAZEL, M. J. SCHELLENBERGER, AND K. S. MICHELSON. Predator-induced defense: variation for inducibility in an intertidal barnacle 1240–1247
HUNTER, A. F., AND J. S. ELKINTON. Effects of synchrony with host plant on populations of a spring-feeding lepidopteran 1248–1261
BRADSHAW, W. E., S. FUJIYAMA, AND C. M. HOLZAPFEL. Adaptation to the thermal climate of North America by the pitcher-plant mosquito, *Wyeomyia smithii* 1262–1272
MUELLER, L. D., A. JOSHI, AND D. J. BORASH. Does population stability evolve? 1273–1285
AMARASEKARE, P. Coexistence of competing parasitoids on a patchily distributed host: local vs. spatial mechanisms 1286–1296
HELLGREN, E. C., R. T. KAZMAIER, D. C. RUTHVEN III, AND D. R. SYNATZSKE. Variation in tortoise life history: demography of *Gopherus berlandieri* 1297–1310
BERTEAUX, D., AND S. BOUTIN. Breeding dispersal in female North American red squirrels 1311–1326
LAWLER, I. R., W. J. FOLEY, AND B. M. ESCHLER. Foliar concentration of a single toxin creates habitat patchiness for a marsupial folivore 1327–1338

NAGER, R. G., P. MONAGHAN, AND D. C. HOUSTON. Within-clutch trade-offs between the number and quality of eggs: experimental manipulations in gulls 1339–1350
SANDERCOCK, B. K., S. R. BEISSINGER, S. H. STOLESON, R. R. MELLAND, AND C. R. HUGHES. Survival rates of a neotropical parrot: implications for latitudinal comparisons of avian demography 1351–1370
SCHLOSSER, I. J., AND L. W. KALLEMEYN. Spatial variation in fish assemblages across a beaver-influenced successional landscape 1371–1382
BRAGG, D. C. Simulating catastrophic and individualistic large woody debris recruitment for a small riparian system 1383–1394
JOHNSON, C. M., D. J. ZARIN, AND A. H. JOHNSON. Post-disturbance above-ground biomass accumulation in global secondary forests 1395–1401
CAVIGELLI, M. A., AND G. P. ROBERTSON. The functional significance of denitrifier community composition in a terrestrial ecosystem 1402–1414
GEBAUER, R. L. E., AND J. R. EHLERINGER. Water and nitrogen uptake patterns following moisture pulses in a cold desert community 1415–1424
LEUSCHNER, C. Are high elevations in tropical mountains arid environments for plants? 1425–1436
EGERTON, J. J. G., J. C. G. BANKS, A. GIBSON, R. B. CUNNINGHAM, AND M. C. BALL. Facilitation of seedling establishment: reduction in irradiance enhances winter growth of *Eucalyptus pauciflora* 1437–1449
DAVIES, K. F., C. R. MARGULES, AND J. F. LAWRENCE. Which traits of species predict population declines in experimental forest fragments? 1450–1461

Notes

HJERMANN, D. Ø. Analyzing habitat selection in animals without well-defined home ranges 1462–1468

Book Reviews 1469–1475

Books and Monographs Received 1476

NUMBER 6, JUNE

Reports

BI, H., G. WAN, AND N. D. TURVEY. Estimating the self-thinning boundary line as a density-dependent stochastic biomass frontier 1477–1483

Articles

NIKLASSON, M., AND A. GRANSTRÖM. Numbers and sizes of fires: long-term spatially explicit fire history in a Swedish boreal landscape 1484–1499
BERGERON, Y. Species and stand dynamics in the mixed woods of Quebec's southern boreal forest 1500–1516
LOMOLINO, M. V., AND D. R. PERAULT. Assembly and disassembly of mammal communities in a fragmented temperate rain forest 1517–1532
PIERCE, B. M., V. C. BLEICH, AND R. T. BOWYER. Social organization of mountain lions: does a land-tenure system regulate population size? 1533–1543
TIELBÖRGER, K., AND R. KADMON. Temporal environmental variation tips the balance between facilitation and interference in desert plants 1544–1553
MEDEL, R. Assessment of parasite-mediated selection in a host–parasite system in plants 1554–1564
UNDERWOOD, N., AND M. D. RAUSHER. The effects of host-plant genotype on herbivore population dynamics 1565–1576
